(Nasdaq: SRDX), a leading provider of medical device and in vitro diagnostic technologies to the healthcare industry, today announced results for its fiscal 2018 second quarter, ended March 31, 2018, and raised financial outlook for fiscal 2018.

#### **Recent Highlights**

"We made important progress on each of our strategic objectives in the second quarter while delivering strong financial results. "Further, as a result of our financial performance and the signing of the Abbott transaction, we have raised our revenue and earnings guidance for fiscal 2018."

#### Second Quarter Fiscal 2018 Financial Results

Total revenue for the second quarter of fiscal 2018 was \$19.1 million, as compared with \$17.5 million in the prior-year period. Medical Device revenue was \$14.1 million in the second quarter of fiscal 2018, as compared with \$12.7 million in the year-ago period, an increase of 10.4%. In Vitro Diagnostics revenue was \$5.0 million for the second quarter of fiscal 2018 as compared with \$4.8 million in the same prior-year quarter, an increase of 4.8%.

Diluted GAAP earnings per share in the second quarter of fiscal 2018 was \$0.11 as compared with \$0.04 in the year-ago period. On a non-GAAP basis, in the second quarter of fiscal 2018, earnings per share was \$0.07 as compared with \$0.05 in the year-ago period. The increase in earnings in the current-quarter period reflects increased revenue, contingent consideration gains, and a favorable income tax benefit partially offset by previously announced increased investments in research and development to support the Company's whole-product solutions strategy, including the *SurVeil* DCB and other proprietary products, as well as increased selling, general and administrative expenses.

As of March 31, 2018, cash and investments were \$70.3 million, which includes \$25.0 million from the recently announced Abbott transaction. Surmodics generated cash from operating activities of \$27.4 million in the first six months of fiscal 2018. Capital expenditures totaled \$4.0 million for the first six months of fiscal 2018.

#### Fiscal 2018 Guidance Increased

As a result of revenue performance in the first six months of fiscal 2018 and to reflect the impact of the Abbott transaction, Surmodics increased its fiscal 2018 revenue and earning guidance. Surmodics expects fiscal year 2018 revenue to range from \$75.0 million to \$79.0 million, up from previous expectations in the range of \$72.0 million to \$75.0 million. The Company expects diluted loss in the range of (\$0.20) to (\$0.35) per share as compared with the prior guidance of (\$0.45) to (\$0.70) per share. Non-GAAP diluted (loss) earnings guidance range is now (\$0.06) to \$0.09 per share as compared with prior guidance of (\$0.20) to \$0.05 per share.

#### **Use of Non-GAAP Financial Information**

In addition to reporting financial results in accordance with U.S. generally accepted accounting principles, or GAAP, Surmodics is reporting non-GAAP financial results including EBITDA and Adjusted EBITDA, non-GAAP operating income (loss), non-GAAP income (loss) before income taxes, non-GAAP net income (loss), and non-GAAP diluted earnings (loss) per share, and the non-GAAP effective income tax provision (benefit) rate. We believe that these non-GAAP measures, when read in conjunction with the Company's GAAP financial statements, provide meaningful insight into our operating performance excluding certain event-specific matters, and provide an alternative perspective of our results of operations. We use non-GAAP measures, including those set forth in this release, to assess our operating performance and to determine payout under our executive compensation programs. We believe that presentation of certain non-GAAP measures allows investors to review our results of operations from the same perspective as management and our board of directors and facilitates comparisons of our current results of operations. The method we use to produce non-GAAP results is not in accordance with GAAP and may differ from the methods used by other companies. Non-GAAP results should not be regarded as a substitute for corresponding GAAP measures but instead should be utilized as a supplemental measure of operating performance in evaluating our business. Non-GAAP measures do have limitations in that they do not reflect certain items that may have a material impact on our reported financial results. As such, these non-GAAP measures should be viewed in conjunction with both our financial statements prepared in accordance with GAAP and the reconciliation of the supplemental non-GAAP financial measures to the comparable GAAP results provided for the specific periods presented, which are attached to this release.

- (1) Represents accounting adjustments to state acquisition-related contingent consideration liabilities at their estimated fair value, including accretion for the passage of time as well as adjustments to the liabilities' fair values related to changes in the timing and/or probability of achieving milestones. The tables include contingent consideration liability adjustments in each respective historical period and do not include in future-period fair value changes, other than estimated accretion expense as determined at the end of the current quarter.
- (2) Foreign exchange gain and loss are related to marking non-U.S. dollar contingent consideration to period-end exchange rates. The tables include foreign currency exchange loss or gain recorded in each respective historical period and do not include forecasted currency fluctuations in future periods.
- (3) Amortization of acquisition-related intangible assets and associated tax impact.
- (4) Represents the gain recognized on the sale of strategic investments.
- (5) Income tax expense from the re-measurement of net deferred tax assets recognized after the enactment of the Tax Cuts and Jobs Act in December 2017.
- (6) Represents an estimated royalty-related customer claim settlement accrued as of March 31, 2018.
- (7) Net income (loss) includes the effect of the above adjustments on the income tax provision, taking into account deferred taxes and non-deductible items. Effective rates of 24.5% (fiscal 2018) and between 34-35% (fiscal 2017) were used to estimate the income tax impact of the adjustments, except that expenses occurring in Ireland have not been tax-affected as all tax benefits are offset by a full valuation allowance.
- (8) Options to purchase common stock as well as unvested restricted stock and performance stock units are considered to be potentially dilutive common shares but have been excluded from the calculation of GAAP net loss per share as their effect is anti-dilutive for the six months ended March 31, 2018 and guidance for the year ended September 30, 2018 as a result of the net loss for these periods on a GAAP basis. However, as the Non-GAAP adjustments result in Non-GAAP net income, the dilutive effect of these options and other outstanding stock awards have been included in the calculation of Non-GAAP net income per share. Accordingly, the (Loss) Income Per Share column may not total.
