EDEN PRAIRIE, Minn. – (BUSINESS WIRE) – July 31, 2014 – SurModics, Inc. (Nasdaq: SRDX), a leading provider of surface modification and in vitro diagnostic technologies to the healthcare industries, today announced results for its fiscal 2014 third quarter.

Commenting on the Company's performance, SurModics' President and Chief Executive Officer Gary Maharaj said, "Despite headwinds faced by our Medical Device customers, we were able to generate revenue from non-coronary markets and post solid growth in that segment in our third quarter. Importantly, our team made significant progress advancing our drug coated balloon platform, positioning SurModics attractively for the future. Further, as we expected, SurModics' In Vitro Diagnostics segment returned to growth."

Third Quarter Revenue and Earnings Summary

GAAP revenue for the fiscal 2014 third quarter totaled \$14.6 million, compared with \$14.3 million in the fiscal 2013 third quarter.

Diluted earnings per share from continuing operations in the third quarter of fiscal 2014 increased to \$0.27, from \$0.22 in the prior-year period. Maharaj stated, "The increase in earnings per share was driven both by continued SG&A expense management and the shifting of drug coated balloon expenditures due to the timing of preparation work for a first in human trial. We expect R&D spending growth for this initiative in the fourth quarter of fiscal 2014."

Medical Device Summary

The Medical Device business unit accounts for approximately three-quarters of the Company's total revenue. This unit, which includes hydrophilic coatings and device drug delivery technologies, posted revenue of \$10.8 million in the third quarter of fiscal 2014, increasing 2% from the year-ago period. The third quarter of fiscal 2013 included a \$500,000 non-recurring license milestone payment. Without this payment, Medical Device revenue grew 7% in the current year quarter. Third quarter 2014 hydrophilic coating royalty revenue was \$7.2 million which is comparable with the prior-year period. Medical Device generated \$5.9 million of operating income during the third quarter, a 12% increase from a year ago, primarily reflecting revenue gains and the timing of drug coated balloon R&D investments.

Additional highlights include:

One medical device customer launched new products utilizing SurModics hydrophilic coatings;

- Strength in non-coronary hydrophilic coatings royalty revenue offset a 7% decline in the coronary sector, reflecting our market diversification strategy; and
- Progress continued on development of the paclitaxel drug coated balloon program.

In Vitro Diagnostics Summary

The In Vitro Diagnostics (IVD) business unit accounts for approximately one-quarter of the Company's total revenue. Revenue for the third quarter of fiscal 2014 totaled \$3.8 million, up 3% from the year-ago period. The IVD business unit generated \$1.0 million of operating income in the third quarter of fiscal 2014, compared with \$0.9 million in the year-ago period.

Balance Sheet and Cash Flow

As of June 30, 2014, the Company had \$57.1 million of cash and investments. SurModics generated cash from operating activities of \$12.5 million in the first nine months of 2014, compared with \$11.9 million in the same prior-year period.

The Company earlier today filed a \$175 million universal shelf registration statement on Form S-3 with the United States Securities and Exchange Commission (SEC). The shelf registration statement cannot be used to offer or sell securities until it is declared effective by the SEC. The specifics of any potential future offering, along with the prices and terms of any such securities offered by the Company will be determined at the time of any such offering and will be described in detail in a prospectus supplement filed in connection with such offering. This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities.

"Although we currently do not plan to raise additional capital, the filing of this shelf registration statement is a prudent move to ensure we have efficient access to the capital markets to meet the objectives of our strategic plan," said Maharaj. "It also provides the financial flexibility to leverage market conditions and support our future growth."

Fiscal 2014 Outlook

SurModics updated its previously stated earnings per share outlook for fiscal 2014. The Company now estimates diluted GAAP earnings from continuing operations to be in the range of \$0.90 to \$0.97 per share, an increase from previous guidance of \$0.85 to \$0.97 per share. SurModics is reaffirming its full-year revenue guidance to be in the range of \$56.0 million to \$58.5 million. The Company also indicated that fiscal 2014 cash flow from operating activities should be at least \$19.0 million, and capital expenditures are expected to range from \$2.2 million to \$2.5 million.
